

Dear Sir, Testimonial

I had your letter on the 8/10/95, but because of the enclave nature and poor communication of my area and the rest of the country, I could not reply you until now. However, I appreciate your keen interest about my health. The fact is that when I received your letter, the amount was so high that I was unable to raised that amount.

In fact, I want to keep you people informed that I have ~~sent~~ sent no money since I received your first reply about my inquiry. I am actually struggling to raise that amount but it is not easy. You are well aware of the fact Cameroon is now a very poor country because of the economic crises and the drastic cut in salaries. I know that my case is very serious but there is nothing I can do. I cannot steal in order to heal myself. I wish to keep you informed that the money will be sent in two parts. I will try to send the first part in by late December. I will first go in for the treatment of my partial impotence because it is actually disturbing me a lot. Please just keep calm, I have heard of the wonders your dinds have done and I will not fail

Pour ouvrir, couper ce rabat en premier / To open cut this flap first

Ne pas utiliser de papier collant pour fermer - Ne rien mettre à l'intérieur
Do not use adhesive paper to close - Do not put anything inside

Pour me Addition Coller les 2 rabats latéraux en premier, puis celui-ci
Seal the 2 side flaps first, then this one

You people. Today in Cameroon people are dying everyday because they cannot afford essential drugs and I think I am no exception. Please, I have to wait until december, because we are having our municipal elections by the end of this year and I don't know how the political situation will look like there after because the opposition is threatening a civil war should there be any foul so I cannot write before then. Thanks for your kind understanding.
