INDIA

Dear Sir,

I received all the medicine sent me a few months ago. I have taken the one for my Rheumatoid which seems to be a great help but I still have some trouble in my stomach due to cold which I catch very easily. I would like to get 3 bottles of the same medicine.

I would also like to get some of the medicine for a woman who is suffering with Syphilis for more than 25 years now. She weighs 175 pounds and is 45 years of age. Suffering by condition with her own she might need about 3 boxes of medicine.

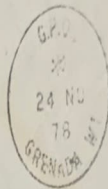

In your last letter you promised to present a better medicine for the scalp infection for my wife. She used the large bottle of oil sent and the scalp has improved much a lot but we are still looking forward to receiving the medicine you promised.

Please let me know how much I have to send for the above mentioned.

With many thanks,

Yours truly,

Flull
