Chandigarh - INDIA.

Dear Sirs,

While working on the Internet recently, I was fortunate to discover your address and had some information about your Company, your services and the medicines you produce.

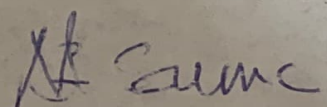

I thank God for this wonderful opportunity because I have a good number of friends and relations who are bed-ridden for years now because of various illnesses which have, so far, remained incurable.

Should you send me more information about your services and products by Post, I will not hesitate to refer several chronic cases to you which our physicians here have concluded to be so far above their competence.

I will be very delighted to read from you in reply, please.

Accept my greetings to you & personnel.

Yours Very Sincerely,

NSHUME Grace

Pour ouvrir, couper ce rabat en premier / To open cut this flap first
