Attention Mr. Param J. Kumar (Mg. Exec.) Ref. No. MIS/1796/78

Dear Sir,

You requested a monthly progress report on the medicine I ordered.

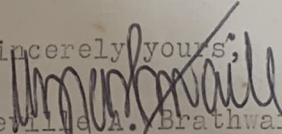

This is to report that I have not started as yet since I wrote to you I have not touched alcohol. Secondly I want to have your opinion before I start, which will be as soon as I receive your reply.

Am I allowed to take my regular vitamin along with your medicine? Can I take the milk cold? Can I use canned milk as fresh milk is not readily available. So far for my case.

My personal friend has an unusual complaint and wonders whether you can cure him as well. He suffers from extreme dryness of skin, so much so that some white spots appear which is very itchy, As such he is forever scratching which is very embarrassing especially whilst in company.

I assured him that your medicine must work as has been done in the past with me. He is anxiously awaiting your reply.

Sincerely yours;

Neville A. Brathwaite
