30th August 2006

Sir/Madam,

My name is Dorothy Eyolle Njie.

I had benefited from your program some time ago in 1985 and was quite strong since then.

But recently I started having problems again and in mid 2004 I wrote to you and you diagnosed my problem and came out with a treatment program that costed \$300 dollars. This money was sent to you but till today those drafts never got to me. I am still not well. I want to start a-fresh.

This is my problem:

- 1) Sometime ago, not too long from now I was diagnosed with slight nervous problem that bothers me of and on.
- 2) I have been suffering from High Blood Pressure for a long time and this has made me to develop a type of cough that bothers me. The hospitals say the cough is as a result of the High Blood Pressure. I also feel some sharp pains a-times around my heart region. I also feel pains in my chest a-times. Some time I have fears that my internal organs can be injured by this pressure.
- 3) In 1985 your competent authority diagnosed cancer in its preliminary stage on my left breast, and this was treated. Now again I feel those pains still on that part of my body from time to time this time right to my left hand and this makes me tremble.

Please, I have a glaucoma problem with my eyes and I am undergoing some treatment so I hope the medication I will receive from you will not affect my eyes.

Sir, I wish to inform you that I have used western medication for long and I wish to discontinue with it; so I rely greatly on your assistance. I count on you.

Humbly Yours
Dorothy Njie.

NB

Attached here is an evidence of some correspondences indicating that after payment my medication ~~was~~ seemed to have been sent but never got to me.
