29th March 2005

Dear Healers,

I received your address from a friend, who recommended your medicines from treating several diseases, especially the Pearl Therapy.

I am a retired Colonel having as a major health problem hypertension (High blood Pressure).

I am 68 years old, height 1m 70cm, Weight 80kg. This health problem began in May 2004. The blood pressure fluctuates between $\frac{210}{160} - \frac{220}{160}$.

The upper pressure changes a bit but the lower pressure remains a constant despite the various treatments I have been taking posing a great problem.

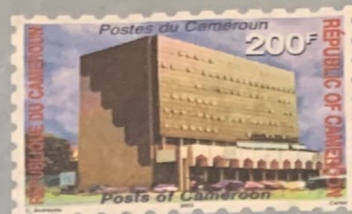

Please, among the drugs you will recommend or prescribe for me, I shall like to have the largest size of your Pearl.

I look forward to reading from you as soon as possible.

Yours faithfully,
Fomuso G.
